DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendment submitted on 21 January 2005. Claims 3, 7-9 and 12 have been canceled and currently claims 1-2, 4-6 and 10-11 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 6 and 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6 it is unclear as to what is meant by according to "DIN 53333". This rejection was made previously however applicant has not responded to it. It is unclear as to whether or not the correct standard number is supposed to be "DIN 53338" as the specification on page 4 recites both "DIN 53333" and "DIN 53338" or if the standard number is indeed supposed to be "DIN 53333". Clarification is requested.

Claim 10 is confusing as written as it is unclear as to how the recited process produces the leather of claim 1. That is, no method steps are recited for producing the leather of claim 1. The steps recited in claim 10 appear to be steps that are performed after the chromium free leather is produced. Applicant should carefully draft the claim to recite how the chromium free leather is produced.

Claim 11 is confusing as written as it is unclear as to how this produces a chromium-free leather. Note that no pelt is specifically mentioned in claim 10 and no tanning step (whether it be iron tanning or any tanning step) is specifically recited. The claims appears to be drawn to process steps that occur before tanning. No active method step for tanning is positively recited.

Allowable Subject Matter

4. Claims 1-2 and 4-5 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach and/or fairly suggest the formation of chromium free leather having the recited Fe content.
6. Claims 6 and 10-11 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
